If "YES", please briefly explain here: (eg., sulpha allergy)

ADDITIONAL INFORMATION

Do you have a copy of your patient's serum CBC, BUN/Cr, LFTs, G6PD from the last 6 months?

Yes - please include them with this referral so that your patient can get started sooner.

No - I would like the IHH MD to order.

IV Referral Form (Cont.)

IV THERAPY SERVICE REQUIRED

<input type="checkbox"/> Stress Free	Our primary adrenal support formula using a Meyer's cocktail as the foundation should keep your patient focused, energetic and ahead of the game. This IV has a combination of B vitamins, powerful anti-oxidants and minerals that increase detoxification in the liver, and boost metabolism providing a lasting dose of energy. Whether your patient is a student, a stressed out mom, or an executive -their adrenal glands will thank you!
<input type="checkbox"/> Clean and Clear	Candida or heavy metal burden? This infusion offers enhanced liver detoxification and support for reducing a toxic load. Some of the perks of this cleansing formulation can be increased energy, clear mind and focus, improved fat metabolism and balanced hormones. This formulation is meant as an adjunct to any heavy metal or Candida protocol you may prescribe.
<input type="checkbox"/> Body Bliss	This is the ideal weight loss support formula for anyone who is looking to drop a few pounds! Body Bliss is a unique combination of blood sugar balancing, metabolism boosting and liver detoxifying anti-oxidants, vitamins and minerals. It includes an intramuscular injection for a long lasting metabolic boost! To be used in conjunction with any weight management program.
<input type="checkbox"/> Feel Good	Is your patient feeling sick? Is it a cold or flu? Whether it's a viral or bacterial infection, this infusion is sure to boost their immune system to fight off any infection. Supercharged with vitamin C and other virus fighting ingredients it is sure to make your patient feel good once again.
<input type="checkbox"/> High Performance	Help to enhance your patient's athletic performance at their upcoming competition with the high performance IV. Boosted with electrolytes and amino acids to replenish their stores, their performance is bound to improve with a pre-competition infusion. Recovery will be enhanced allowing them to push harder to reach their athletic goals. Give them a competitive edge!

Include the following additions	Glutathione	<input type="checkbox"/> 200 mg	<input type="checkbox"/> 600 mg	<input type="checkbox"/> 1000 mg	<input type="checkbox"/> 1200 mg

Please note: Your patient will remain in your care for all other naturopathic services.

Your patient will be notified by our clinic and an appointment time will be scheduled. All appropriate forms will need to be filled out by your patient once he/she attends the Institute for Hormonal Health. These forms include the necessary consent and privacy forms.

Please fax this completed form and accompanying lab work to the Institute for Hormonal Health: 905-844-2009.

Please note: Patients are required to have a short initial consultation with one of our IHH certified naturopathic doctors prior to receiving treatment as per regulations. There is no charge for this appointment.
